Preface

Never in my wildest dreams did I ever think that one day I would be authoring books that would reach people all over the globe. I am living proof that with God all things are possible and as a result I am able to share with you my story and my experience which ultimately brought you and me together through this book. Many times God brings the best out of us through a little squeezing, and I'll be the first to admit that some of my best work was born out of some pressure and hard times. Keep in mind that carbon, with enough pressure and time, eventually becomes a diamond. I have come to learn that when God "squeezes" you, He is looking to get the best out of you while extracting and discarding the worst.

There were several occasions when I thought this book was complete but God showed me that there was more that needed to be included in it for it to be the greatest benefit to you. This book is for the Christian single as well as the person who is currently in a relationship but not yet married who desires to be one day. In other words, this book is for you if you are single, have never been married, have been divorced, are widowed, and even if you are dating right now. I will be discussing with you later in the book why "dating" Christians fall into the category of single.

I realize that there are a lot of books out there on the market written for the single Christian, however one thing I have noticed is that a good majority of them are written by single people. I believe that this book will be different from many of the others because it reveals the principles that I personally used when I was once single, which ultimately got me to the point from being single to getting married. In other words, if someone wanted to learn how to drive or how to lose weight, who would be the first person they should seek out?

The person who was still losing the weight or still learning how to drive or the person who already lost the weight and passed their road test? Now don't get me wrong, I am certainly not saying that you cannot learn anything from someone who is single and written a book about it, all I am saying is that you should explore both sides and extract the information from different sources that will help you reach your goal and what you are believing God for in your life.

There are some pretty great books out there written by single Christians which can give you an excellent perspective that I may not be able to cover here in this book. It would be pretty presumptuous of me to even think that my book contains everything that you need to know without further need to obtain other resources to learn from. In fact, when you signed up to receive this book, you were given access to some awesome additional resources that are designed to give you even more knowledge on the topics discussed here.

Throughout my entire life I have made countless decisions which have affected my life in numerous ways. Out of all of them, there are only two key decisions that I am truly thankful for making. The biggest one of course is my decision to accept Jesus Christ into my life as my Lord and Savior. The other decision I am truly thankful for is the decision to marry my beautiful and wonderful wife Adrian, who loves the Lord very much. She is a very kind, considerate and giving person and I thank God each day for bringing her into my life. My wife has been such an inspiration to me and one of the many reasons I love her so is because no matter what I am going through she is always there to uplift and encourage me.

She is a true example of what God meant when he described what a Proverbs 31 woman should be. Before we ever got married I remember plenty of days when I would call her to tell her I was having a bad day and rather than only sympathizing with me and telling me everything would be alright, she would also take the time out to look up an appropriate scripture to help me get through whatever I was going through at the time.

I am also very thankful for my in-laws who have been so very supportive to us throughout our marriage. I tell people that you always hear horror stories about how bad in-laws can be once you get married. I am thankful that this was not the case with me when I got married. I am also very thankful to God for you who this book was written for and I am so very thankful to God for taking me through one of the most educating and exciting journeys while I was single. During my season of singleness God showed me some very important principles and Godly lessons which were responsible for me ultimately being blessed with a wonderful wife. I am thankful for the opportunity to share with you what I learned during that time.

Introduction

This book is dedicated to every single Christian out there who has ever desired to find that special someone who God has placed on this planet for them. It is my intent through this book to help you reach this point as a result of you developing a closer relationship with God and learning how to obtain the great things God has already promised you in His word,

Well are you ready to begin? If so then I want to start off by first telling you that you are going to get out of this book exactly what you are willing to put in. You have the choice to just skim over this material looking for a few quick answers or you can really take the time to study this material, look up the scriptures, meditate on them, get the additional resources provided, and complete all of the exercises found inside the study guide which comes along with this book. After each chapter, you will complete the questions in the study guide for that chapter before continuing on in the book. This material is quite different from a lot of other “similar” books because it requires you to get involved and participate. You are going to have to do a lot more than just read the words on these pages in order for you to get the most out of it. In life you can always choose to take the short cut however if you do not get the results you are looking for then you will have no one else to blame but yourself. You must be willing to go the extra mile in order to achieve in life what you really want.

PROMOTIONAL COPY OF FULL VERSION

The principles and lessons you are going to learn in this book will not only guide you with getting your prayers answered for finding your perfect match from God, but you can also apply them to getting almost anything that you may be believing God for. It will however take a bit more than simply reading a few pages in a book and then just idly sitting back and waiting for your miracle to just fall out of the sky.

This book is not about showing you how to find yourself a mate in and of itself, but instead is meant to show you how to obtain everything that God has in store for you if you are willing to follow His instruction manual. I remember all too well trying to put together a furniture shelf choosing not to read the instruction manual even though one was provided. For some reason I thought that I could still do a good enough job assembling it on my own. After all, how hard could it be as long as I looked at the picture right? Was I ever wrong because it took me much longer to put it together than if I would have just followed the instruction manual provided. If you fail to read the instruction manual and then are not happy with the results of what you have built then you have no one else to blame but yourself. You cannot blame the instruction manual nor can you blame the author of the manual.

Through God's guidance I have tried to create a great resource for you that is simple to understand, scriptural, and Christ centered. My goal was to provide you with a resource that would be based on and backed up by the word of God. Every time you pick up this book to read it you should always have your bible open and ready to look up all referenced scriptures. It will serve as your greatest tool and resource to use during your reading and learning. Your bible is what is going to allow you to make the connection between the words on these pages and the word of God. I have purposely not written out a majority of the scriptures here in the book because it is important that you look each of them up on your own.

It was necessary for me to look them up and study them in order to write this book and it is equally important for you to do the same in order to learn from this book. If you are planning on reading this book without your bible, then do yourself a huge favor and just stop reading right now because you will be doing yourself a great disservice. The next important thing you are going to want to make sure you do is to pray before each time you read this book. You will be asking God to open your mind and speak to your spirit by giving you understanding during your study time of this material. As you read each chapter, you will definitely want to be sure to use the Prayer & Affirmations resource that goes along with this book.

PROMOTIONAL COPY OF FULL VERSION

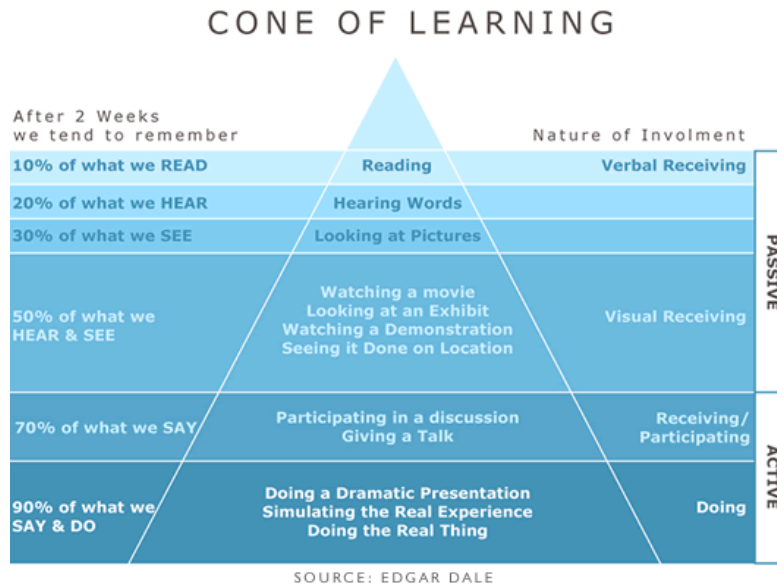

Lastly, as you are reading this book and studying the referenced scriptures, be sure to immediately write down in your journal that also comes with this book, whatever thoughts that come to you. Now of course I am well aware of the fact that if you are doing exactly as instructed and not taking any shortcuts, then it's going to take you an extended period of time to complete a chapter. As I mentioned earlier, this book was not designed for you to just read through it quickly and walk away with only a surface understanding of the principles revealed to you.

You may have heard before that the best way to learn a new language is to immerse yourself in that language. Well the best way to really learn this material and get the biggest benefit from it is to immerse yourself in it as well. Finally, once you have completed a chapter in its entirety, then you will go to the study guide which accompanied this book and complete all of the activities for that particular chapter. Doing so is going to reinforce the material you have just learned and help move you along on the road to reaching the goals you have set for yourself when you decided to take advantage of this book.

Extensive research has been done on how people learn the best and retain information. As you refer to the "Cone of Learning" chart, you will see that the majority of information is remembered the more involved you are in the learning process. Sadly, as you can see, only a mere 10% of what you read is even remembered after just two short weeks. This is why it's so important that you take advantage of all of the additional bonus resources that came with this book including the audio download. You can download the audio onto a disc or onto your MP3 player and listen to it while you are on the go whether it's while you are working out, cleaning, or simply driving.

Another great way to get involved with what you will be learning is to discuss what you have learned with other like-minded individuals who may have similar goals as you do regarding this subject. This is why we have also made available free access to our recorded teleseminars to you and to everyone who have chosen to make the wise decision of taking advantage of the full version of the book. These teleseminars feature different experts who will be sharing their extensive knowledge of this subject with listeners from around the world who desire to find their perfect match God's way.

Putting First Things First

Chapter Sneak Peak....

God is much more qualified to find the perfect mate for you than you are therefore you should put it totally in His hands, keep Him first, and trust that He will bring them into your life according to His perfect timing. (Pro 3:5-6) There is no denying that if I would have been placed solely in charge of “finding” my wife instead of letting go and letting God bring Her to me, then there is no telling what in the world I would have ended up with. I am so thankful that I allowed God to do what He does best...which is EVERYTHING!

Here are just a few key things you will be learning from this chapter:

- The key step in finding the person God has set aside just for you.
- What may be holding you back and keeping you from experiencing God’s best that He has for you.
- The number one thing you must start doing immediately if you ever want to experience the perfect relationship you have been waiting for.
- The importance of building the right Godly foundation before getting involved in any relationship as well as the steps for doing it.
- Plus much more...

Your Season Of Singleness (Blessing or Burden?)

Chapter Sneak Peak....

Are you chasing happiness or are you experiencing happiness in whatever state you may be in right now? The sad fact is that the majority of people spend all their lives chasing happiness only to never really take possession of it. Rather than letting your happiness become conditional on a set of circumstances or events, let your happiness be based on Christ and all that He has already done for you and already given you.

Your happiness should never rest in someone else but instead in Jesus. Remember, happiness comes from WITHIN even when you are WITHOUT. God's ultimate goal for your life isn't necessarily "happiness" but rather your growth and development in Christ. Now of course this does not mean that God doesn't want for you to be happy. On the contrary, He wants for all His children to experience happiness just as any loving parent would want for their children. However no parent who truly claims to love their child is going to sacrifice their child's growth or safety for any amount of happiness.

This chapter will be showing you how to overcome the frustrations of being single as well as how to find peace in your current season. You will also be learning the importance of becoming whole within yourself instead of relying on others to do this for you. You will discover why Christians who are dating are still considered "single". You will also be learning the 5 Relationship Stages you will need to go through to get you to where you ultimately need to be.

The Definition Of Love

Chapter Sneak Peak....

If you were to ask several people what their definition of love is or how do they know when they are in love, chances are good that you would probably get different answers from each of them. Different people have their own definition of what love is which is why it's so important to make sure you refer to the bible for the true definition of love as it pertains to God. The true definition of Love can really be summed up in the scripture **John 3:16**. This scripture tells us that God so loved the world that He gave His only Son so that whoever believes in Him should not perish but have everlasting life. In fact there are many instances in the bible which give us distinct clues as to the true meaning of love as seen through God's eyes.

This chapter is going to give you an in-depth look at the true meaning of love as defined by God. So many people ask how they will know when someone really loves them. Well after reading this chapter you will never again have to wonder if someone really loves you or not because you will finally have a clear understanding. We will also be discussing the three types of love and the roles they each play in your life. You are going to absolutely "love" this chapter and the invaluable information you are going to receive.

Searching For Mr. or Mrs. Right

Chapter Sneak Peak....

Searching for love can be an uphill battle especially because we tend to put the absolute worst person in charge of this task and that person is ourselves. One of people's biggest questions to me is exactly where are they supposed to find the right person and how can they tell if that person is actually the right one. Well the good news is that by the end of this chapter and this book, you are going to be miles ahead of most other people in getting these questions answered. The truth is there is no magical shopping mall that you can go to in order to select the perfect person for you that comes ready-made to order. In the beginning, I made the huge mistake of putting too much focus on searching for my perfect mate which always ended up with me looking for love in all the wrong places.

You are going to learn how to avoid the same mistakes that I made and that countless of other single Christians have made when it comes to finding the right person. You will be learning what you need to be looking for during your search (and it's not what you are thinking). You will discover the real deal about being in the right place and at the right time. You will discover the two key steps you need to start doing today to reach your target but sadly almost everyone is not doing including you. I am going to be sharing with you the number one weapon of mass destruction that may be keeping you from reaching the blessing you have been waiting for.

Ask Me No Questions and I'll Tell You No Lies

Chapter Sneak Peak....

When me and Adrian were first introduced to each other we spent 100% of our time getting to know each other by phone since we each lived in different states. Because of this we didn't spend time going to the movies or to the park, instead our time was spent getting to know the character, likes and dislikes, values, and way of thinking of each other. We

accomplished this by asking not only a lot of questions but also asking the right questions. When you meet someone who you might be considering a relationship with, then the best way to know if you should even move forward with them will depend on the information you gather in advance through the questions you ask them.

During the “get to know” stage be sure to refer to the Questions Guide that came with this book as a bonus. You will find over 100 questions that are key for you to be asking when getting to know someone you may have intentions on getting into a relationship with. These questions will help you determine from the start whether that person is even right for you or whether you are right for them. You will also be learning the three simple rules for asking these questions along with the top five questions you better not forget to ask.

[Get Your Bonus Question Guide Now](#)

You Shall Know Them By Their Fruits

Chapter Sneak Peak....

As a Christian seeking the right person for you, how in the world are you able to know if someone is actually who they claim to be? This seems to be one of the biggest frustrations I have heard from many single Christians. If this is one of your frustrations as well then it's pretty safe to say that you are really going to learn a lot from this chapter. Nothing can be more disheartening than to find out someone was representing themselves as one thing when in fact they were another. Just because a tree is in an apple orchard doesn't necessarily mean that it is an apple tree. You won't truly know what kind of tree it is until it begins to bear fruit.

Here are just a few key things you will be learning from this chapter:

- How to avoid the common mistakes typically made when meeting someone.
- How to avoid wasting your valuable time with the wrong person.
- Discover if that potential mate is really the one God intended for you.
- How to finally stop being deceived by those wolves in sheep's clothing.
- Plus much more....

Many times meeting the wrong person can often be like encountering a landmine. Step in the wrong place or put yourself in the wrong situation and you could find yourself in some serious trouble. This chapter is going to teach you how to avoid those landmines.

God Doesn't Wear A Watch

Chapter Sneak Peak....

I have been told on several occasions that I can be somewhat impatient at times. I am one of those people who constantly looks at his watch while waiting in a line as if the mere act of doing so is going to magically cause the line to move faster. Some of the key things I am going to answer for you in this chapter is why does God make you wait and what are some of the consequences of not waiting on God. I will be sharing with you some specific steps that you can put into action immediately that will help you during your period of waiting. You must remember that God is not bound to the same time constraints that we are. He does everything according to His own time and not according to yours.

This chapter will be one of the most educational chapters for you because the period of waiting for most single Christians can be the toughest part of the process. If the devil cannot destroy your dreams and plans then he will settle on distracting you from reaching them. This chapter is going to show you how to beat the devil at his own game while you are waiting on God. You will also be learning the steps you must take to get in God's will and once you are in it...how to stay there.

Unanswered Prayers

Chapter Sneak Peak....

When you have a need, you are typically told to take it to God in prayer, which is simply our way of communicating with God. This chapter is going to deal with the question so many frustrated Christians find themselves asking. That question is: “why do some of my prayers go unanswered?” I will be sharing with you the key mistakes most people make and what most people, including yourself, may be leaving out which can be hindering your prayers from getting answered. Let’s start with one of my favorite scriptures in the bible which is found in

Psalms 37:4. This scripture states: “*Delight yourself in the Lord and He will give you the desires of your heart.*” Just because God says He will give you the desires of your heart, this scripture is not a blank check for you to just ask God for whatever you want no matter how bad or harmful it may be for you or others.

There is a right way to getting your prayers answered and there is also a wrong way. Getting on the right road to answered prayers is always going to involve taking the right steps but sadly too many Christians miss the mark in this category. By the time you complete this chapter, you will be on that road that will get you to answered prayers in your very own life.

Is Anybody Listening?

Chapter Sneak Peak....

I am going to be explaining some fairly simple ways that you can begin implementing immediately to ensure that you are truly hearing from God. When trying to hear from God, many Christians find themselves in need of a “hearing aid” in order to assist them. Your hearing aid is the word of God. If someone were across the room and whispering something to you, then you would obviously need to move closer to them in order to be able to distinguish what it is that they are trying to say to you. Getting closer to God is the best thing to aid you in hearing from Him.

So with that being said, how good is your hearing? The truth is God doesn't really need to speak louder, we just need to hear better, now how can you do this effectively? This chapter will be answering this question for you by showing you some specific steps for ensuring you are truly hearing from God. Stop letting the static from the enemy disrupt your signal from God and start learning how to filter out the distractions which are keeping you from getting direction from God towards finding your perfect match.

I will also be discussing the three keys you need to do to be able to hear from God as well as what your number one resource is that you have to assist you with this.

True Love Always Waits

Chapter Sneak Peak....

Just about every Christian that I surveyed said that they believe that intimacy should be saved for marriage, however many of those same Christians still struggle with this issue. In this chapter I am going to discuss why so many people struggle with this and offer you some specific ways to help you in this area. Sadly in today's society we spend more time trying to teach about the importance of practicing "safe" sex when we should be teaching more about "saving" sex.

If you play with rattlesnakes then eventually you are going to get bitten. In other words don't play with or flirt with the devil. He is very sneaky and conniving and sometimes he knows you better than you know yourself and knows exactly which buttons to push to get you to do what you should not do. You will be learning the specific tricks the devil is using right now to deceive you and others in this area.

This chapter identifies the 7 keys to help you avoid sexual sin. In order to be successful in this area you must practice ALL of these seven keys and not just some of them. I have already helped you out with key #6 from the list. You will find an Abstinence Pledge in your study guide which comes with the full version of this book. Be sure to print it out and sign it and post it where you can see it.

Plant A Seed In Your Time Of Need

Chapter Sneak Peak....

“Whatever a man sows, that he also will reap.” I am certain that this is not the first time that you have heard of this principle. The sad fact is that many Christians never really grasp how powerful this Godly principle is. So many people come with a give me attitude without ever really taking the time to sow into what it is they may be believing God for. If you want more love then you must first be willing to give love. If you want respect then you must first give it. So I hear you saying, “If I am looking for God to bless me with my perfect match then how exactly do I sow this?” I am going to answer that for you by explaining in this chapter how I put this principle into action before I ever met my wife.

In this chapter, you are going to be learning the 3 principles of sowing and reaping which will prove invaluable to you for aiding you in achieving what it is you desire. Many people are still not convinced or believe that the law of sowing and reaping actually works. This is probably why so many Christians fail to tithe. Just because someone isn't convinced about the law of gravity doesn't mean they won't still fall to the ground if they jumped off a tall building. As you read this chapter and begin to discover the awesome power of this principle, don't be surprised when you reap the harvest that you have been praying for in your relationships and in your life.

Learn Your Role

Chapter Sneak Peak....

If you desire for God to bless you with a spouse then it is vital that you get a clear understanding of what your role will be in a marriage. It's equally important that you get your answers based on what the bible says and not your own preconceived notions that you may have gotten from your parents, your friends, or even television. This chapter is going to prove to be a wonderful resource as it gives you some very specific steps necessary for you to get ready for your future role in marriage.

Well before I even met Adrian, I had begun preparing for my role in marriage in order to one day become the husband God would want me to be once He blessed me with a wife. After Adrian and I met and we began to consider marriage, I told her that what we do while we are single will be indicative of what we do if we ever get married. The same rule applies to you as well. Everything you begin doing now will play an important part in what type of results you end up with later.

Don't leave anything to chance. Use the information you will find in this chapter to help you prepare for your future role in the wonderful production that God will be directing starring you and your future match made in heaven.

Marriage: The Final Frontier

Chapter Sneak Peak....

More than likely if you are reading this book then it is hopefully your goal to one day find the perfect match for you and eventually end up getting married. This chapter is one of my favorites because it digs in deep to the real purpose of marriage and how to get yourself ready for it if that is what you one day desire. I must warn you though that the devil isn't just going to roll out the red carpet in anticipation of your journey towards marriage. He is going to fight it every chance he gets, especially if you have set it in your heart to pursue a Godly marriage.

This is why it is so important for you to prepare yourself as much as possible not only with this book but with all of the other great resources out there. This chapter is appropriately titled as it is because hopefully when you get involved in a relationship or if you are already in one, then marriage is hopefully the final destination you are moving towards.

Within this chapter you will discover the key differences between a "contract" marriage and a "covenant" marriage as well as how to prepare for a marriage one day that will last rather than become another statistic.

Satisfaction Guaranteed Or Your Heart Back

Nowadays there are thousands of products that you can purchase that come with some sort of risk free guarantee or satisfaction guarantee. The purpose of these are so that the consumer can feel confident about their purchase while knowing that if for some reason they are not completely satisfied with their decision, they can always return it. This is not the way God intended for things to work in marriage, although thousands of people treat their marriages in a similar fashion.

When you make a purchase with a reputable company that offers a risk free guarantee, then it is fairly simple to return that item and get your money back. When it comes to marriage, it's obviously impossible to do this. Much of the dissatisfaction that occurs in a marriage is caused by false expectations of what an "ideal marriage" is supposed to look like. This chapter will help you clarify what you can expect by showing you what God's purpose is for marriage.

By the way, speaking of a risk free guarantee; did I mention that when you take advantage of the full version of this book you also get a 60 DAY ~ 100% Risk Free Guarantee? If for any reason at all you are not completely convinced that the book is worth every single penny you invested into it, you will get a full refund. (no questions asked) With that type of guarantee, what are you waiting for? [Go ahead now and take advantage of the full version.](#) You have absolutely nothing to lose!

The Yoke's On You

Chapter Sneak Peak....

The bible is very explicit about fellowshipping with someone who is unequally yoked. (2 Corinthians 6:14) While this scripture does not specifically elude to be only speaking about married people, it certainly can and should be applied to marriage. The problem that I found is many Christians have either no understanding of the true meaning of “equally yoked” or either only a vague understanding at best. What I am going to attempt to do in this section of the book is help you understand what it truly means to be equally yoked with someone according to what God’s word says.

When you decide to get into a relationship with someone that you hope leads to marriage, then it benefits you to have as many things going in your favor from the beginning. While this book is an excellent start, following God’s instructions to be equally yoked with that person is most certainly a step in the right direction.
