– The Special Report You Need to Read Before You Even Think of Investing in Forex AutoMoney

From The Desk of Levon Boghos (LBF Investments Inc.)

Product: [Forex Automoney](#)

Review Date: June 2008

Product Type: Automatic Forex Trading Signals Generator Membership

As a professional in FOREX (FOREign EXchange market) with 25 years trading experience, the use of trading signals generator is a must. A few months ago, my co-worker Paul said to me, "Hey! Levon, check it out! Don't use your outdated signals generator again!" He showed me his **Forex Auto Money Automatic Trading Signals** generator.

"I will not buy it, my old trading signals generator is work fine for me since 1989. I don't need a new one!" I replied.

"How about I borrow my account to you and you try it yourself for free?" he said.

"Okay! I will have a try, but I still strongly believe that my old trading signals generator is the best." I replied to him then he gave me his account name and password.

I really didn't want to try it. I thought it was pure crap like all the rest of scam trading signals generator in the market but finally, because of curiosity. I decide to give it a try. A month later, I announced that my old signals generator needed to retire. I joined the membership of ForexAutoMoney, and can not do trading without it.
