## Introduction

**From The Desk Of:** Cory Threlfall

Starting your own business and the dream of working by your own terms and hours is a dream shared by many, but the unfortunate thing that happens, is you 'Fail' because you started your business for all the wrong reasons. And the one main reasons people fail is because they only start it for the "**MONEY**".

Don't get me wrong here, we all want to start an business in order to make money, thats obvious. But, the thing that happens is we start the wrong business. A business we dread waking up to every morning to go to which then in turn will eventually 'Fail' and you'll be back at the drawing board.

The goods news is this report will help you pin point the business of your dreams by helping you focus on what your truly passionate about in your life and turning it into an business that you enjoy getting up to every morning and working hard on **Day In** and **Day Out**.

When I first started, my dream of having my own business was almost a distant memory because I wasn't focused enough on what I was truly passionate about, all I was focused on was the money, so I was forced to make one of the **BIGGEST** decisions of my life if I really wanted to make this dream happen and that was to find a Mentor who could show me the way and give me the necessary knowledge I needed to move forward.

I'm not saying you have to go out and get a mentor, I'm just sharing with you what I did in order to make my dream a reality.

So off I went to find a mentor.

When that day came, he wasn't just any mentor, he was and still is the **#1 Business Coach in North America** who showed me and thousands of others what we were doing wrong and what we needed to do to make it right.

This was an experience I will carry with me for the rest of my life and think about everyday.

Who was my mentor your probably wondering?

Well... his name is **Raymond Aaron**, and he is the founder of the [Monthly Mentor](#).

This man changed my life forever with his principles and teachings. This report is just an example of some of what he taught me.

So with that said, what I'm about to share with you is this report he taught me and countless others and will only take you a roughly 10 minutes or so to complete.

These few minutes will help you determine the right business for you, whether it's online or offline, so YOU don't fall victim to failure like many home base business or business start-ups do.

So... in these next few paragraphs I'm going to share and show you how to pick the right business for you to start, whether it's online or offline, by using a simple little system I was shown.

Believe me, this will not be as stressful as you think.

What I recommend you do first is read through all the **'Steps'** and then do the exercise I've outlined for you.

In closing, I truly hope this report helps you in your quest to discovering the right business for you, whether its a home based business, internet business or offline business. I'm confident that if you follow these simple **'Steps'** below and pin point what it is your passionate about doing, from there its simply putting together a plan of action to make it happen.

**Sincerely,**

# The Secret 5 Step *FORMULA*

## **Step #1. Grab a pen or pencil and note pad.**

This is the easy step. All you have to do Right Now is get a pen or pencil and note pad to write on for the next step coming up.

The reason your writing this stuff down is because it's always good to have your thoughts written down in front of you so you can go over them instead of going over them inside your head where your thoughts run wild and where you will loose focus.

You need to be focused.

So, with that said, do you have your pen or pencil and note pad yet?

If so, continue on to '**Step' #2'**...

## **Step #2. Write down your TOP 10.**

This is where your going to have to use your brain a little bit because this TOP 10 list your about to write down are going to be your TOP 10 business ideas you would like to start-up based on your **interests, skills and passions**.

Please... take as long as you need to do this section. Theres no need to rush.

Remember what your goal is when this exercise is finish - "It's to pin point the business of your dreams", and that should never be rushed.

Once you've **SERIOUSLY** completed this 'Step' move on to the next one.

## **Step #3. Get rid of five of your TOP 10.**

Okay, now it's time to make some cuts. This is where you have to really think about the TOP 10 business start-ups you have written down in front of you.

Look at them good and hard because now it's time to get rid of the five you would MOST likely not want to start and truly enjoy doing as a business.

**Pick Wisely!!**

#### **Step #4. Now get rid of two more.**

It's now time to break down your list even more by getting rid of two more of the five business start-ups you have listed in front of you on your note pad.

Yes, I know, you just spend some time getting rid of the first five, but remember what we are trying to do here. We're trying to figure out the best business for YOU. That's our goal here.

After this step you should only be looking at three business start-ups that you **REALLY** want to start.

#### **Step #5. Your FINAL decision.**

Now it's time for your FINAL decision.

It all comes down to this last step so make sure you make the right choice for it is the one you are going to run with to make your entrepreneurial dreams come true.

Of the three you have left on the note pad in front of you choose the ONE that you know you would excel at and are passionate about doing Day In and Day Out.

This is a **BIG** decision.

Take a few minutes to REALLY think this through... okay.

If you need to go for a walk or even sleep on it and decide in the morning.

It's up to you.

This is the starting point and once you know what it is you want to start it's just a matter of you putting together an action plan or order for it to become a reality.

If you've made your decision, **Good For You!!** If you haven't yet don't worry, take your time because this is your life, time and eventually money we're talking about here.

**\*\*\* Exercise Complete \*\*\***

Now wasn't that simple?

I know it seems so from reading this report, and it is if you know how to simplify the process and not make it more difficult then it really has to be.

People always seem to take the hard route at these kinds of decisions(I was one of them) when it really doesn't have to be.

So... if you've just finished reading through the steps it's now time to get on with it and go through the five steps above and give them a try because I don't want to see you fall victim to becoming one of those business failures.

What I want you to become is one of those business "**Success Stories**" you read in the Entrepreneur Magazine about doing what it is you are most passionate about and love doing everyday and making a killing at the same time.

I truly hope this report opened your eyes up to how simple it really can be find the perfect business for you to start, whether it's online or offline.

Decisions like these are always tough, but we have to make them.

I did and you can to, so good luck to you.
